Eagle Lakers,

The Northerns are here!! The first big batch of our fine feathered friends from the north have arrived. Duck hunting has actually been pretty good just shooting local ducks but over the last few days it has been pretty wild!! We harvested 5 bands on one duck hunt out of 56 birds on Monday.

Goose shooting has been excellent. We are limiting most days, killing tons of Honkers. Some days the afternoon shoots have been better than the mornings. The lesser Canadian geese have been arriving in big numbers daily, this past week. We have lots of cycles to add more goose shooters. This morning snow goose season started, we are off with a bang!!

If you haven't booked yet or would like to add more hunts, give the lodge a call for reservations and inquiries on available lodging package dates.

Happy Hunting!

Mike B.
